

Section 6: EcoSafe™ Guarding and Machine/Safety Enclosures

Glazing Strip 6 8 10 

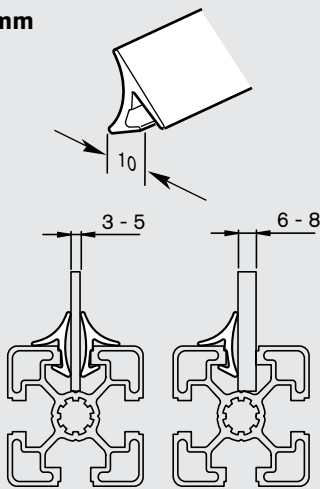

6mm

8mm

10mm

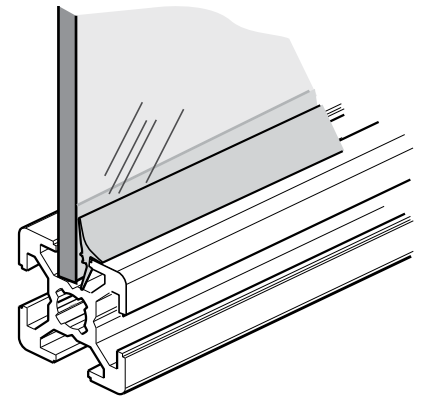

Features:

- Effectively seals panels or panes into the profile T-slot
- Available for profiles with 6mm, 8mm, or 10mm T-slots
- Can be added after a structure is assembled
- Prevents panels from rattling
- Use one for thicker panels, or install on both sides of the panel for thinner panels
- Resistant to acid, caustic solutions, alcohol, mineral oil, and benzene

Material:

- Light gray thermoplastic elastomer

Description	Lot Size	Part Number
6mm glazing strip, 10,000mm long	1	3 842 523 493
8mm glazing strip, 10,000mm long	1	3 842 523 494
10mm glazing strip, 10,000mm long	1	3 842 527 185

Assembly Note

To simplify installation:
 First, press the ends into the T-slot (1).
 Then, press the center of the Glazing Strip into the T-slot (2).
 Finally, working out from the center of the uninstalled portion (3) of the Glazing Strip, press the Glazing Strip into position.
