1 Overview

This section describes an overview of the functions of NB Web Interface. This also describes the Operating Environments for NB Web Interface.

1-1 What is NB Web Interface?

NB Web Interface is a function that monitors a screen that an NB-series HMI displays using a web browser on a personal computer connected via Ethernet to an NB-series HMI (Programmable Terminal called “the PT”).

NB Web Interface has the following functions.

- Monitors a PT screen at the site using a web browser.
- Operates a PT screen at the site using a web browser.

1-2 What NB Web Interface Can Do

This section contains the usage examples of NB Web Interface.

- **Remote Monitoring**

NB Web Interface allows users to check error and alarm details displayed on the PT by accessing the end user's PT from a web browser. Also when users instruct an operator, users can check work done by the operator using a web browser.

- **Remote Operation**

User can access the PT using a web browser. From a web browser, it is possible to remote control the PT.

1-3 Operating Environments

The following shows the system configuration for connecting a PT on a network to a personal computer using NB Web Interface.

1-3-1 Necessary NB Series Configuration

- **NB-series PT Models**

Any of the following NB-series is required to use NB Web Interface.

NB Model	Lot No.
NB3Q-TW01B	09X13M or above
NB5Q-TW01B	
NB7W-TW01B	
NB10W-TW01B	

When the NB model above do not have web server function, please use NB-Manager version 1.30 or above to update the kernel and file system, for operation detail, please refer to **[4-4 System Operate]** of **NB series NB-Designer Operation Manual**.

- **NB Designer Version**

The following version of the system program must be installed in your NB-series in order to use the NB Web Interface.

NB Designer Version (including NB Manager)
Version 1.30 or later*

In the NB-Manager, if there is "*Web Interface Operation*" option on the left side, it means this NB-Manager supports web server function.

*For download the application programs, please access your local Omron website, If local site cannot be found, please access Omron IA global site "<http://www.ia.omron.com/>" at first and select the area where you are.

1-3-2 Necessary Network Environments

Your NB-series must be able to be connected to a personal computer via one of the following Ethernet standard in order to use the NB Web Interface.

Standard
10Base-T or 100Base-TX

1-3-3 Necessary Web Browser

The following web browsers can show a PT screen on a personal computer.

Web browser
Microsoft Internet Explorer Ver.8
Microsoft Internet Explorer Ver.9
Safari (IOS.6x)

2 Using NB Web Interface

This section explains how to connect a PT to a web browser on a personal computer using NB Web Interface.

2-1 Connection Method

This section explains a PT how to connect to a web browser on a computer using NB Web Interface. This document uses Windows 8 and Microsoft Internet Explorer Ver.9 as an example. For details on the operating system, the setting of the web browser and operation methods, refer to manuals for each product.

2-1-1 PT Settings

To use NB Web Interface, the following settings must be made in the project of NB.

1. Use NB-Designer, open the project which will be download to the PT, add bit button component in the frame, set type to "Alternate" in the bit button property, and set the address to LB9175.
2. Compile and download the project to PT.
3. Click the bit button on the PT to switch ON of address LB9175.

2-1-2 Connecting a Web Browser to a PT

This section explains how to connect a Web Browser to a PT.

1. Start a web browser.
2. Input the following URL.
`http://(PT IP Address)/`

For example, when the PT IP Address is "192.168.0.1":

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

To directly open each screen of NB Web Interface, specify the following URL. For details on each screen, refer to **3 The Functions of NB Web Interface**.

Screen	URL
Monitor Screen	<code>http://(PT IP Address)/monitor.html</code>
Operation Screen	<code>http://(PT IP Address)/operation.html</code>
Configuration Screen	<code>http://(PT IP Address)/config.html</code>
Menu Screen	<code>http://(PT IP Address)/menu.html</code>

3. The login screen will be displayed.

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

Reference

The NB Web Interface login uses the Basic Authentication defined by the HTTP.

It is possible to set whether to use the user authentication login screen or not when displaying Monitor Screen. Refer to **4 NB Web Interface Settings** for the settings.

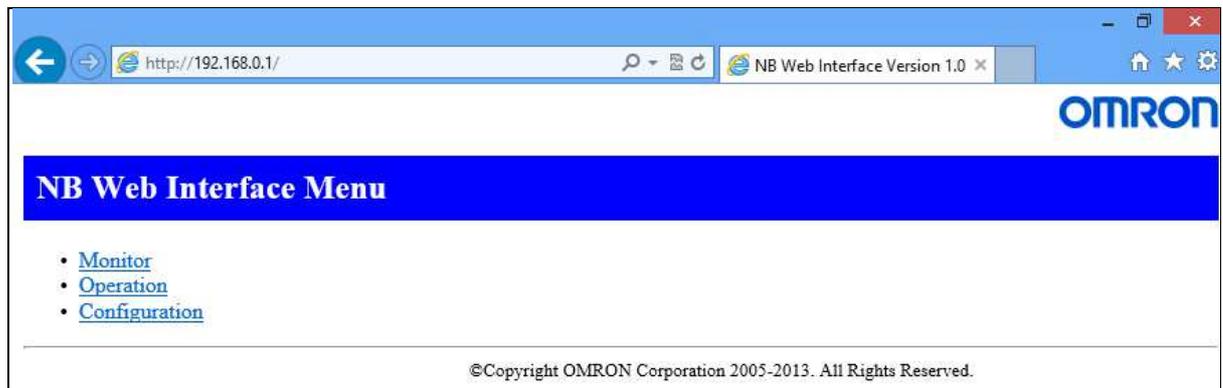

4. Enter the user name and password.

The factory settings for the user name and password are as follows.

User name	default
Password	default

Reference

- The user name and password can be changed by NB-Manager, for details please refer to **5 Authentication settings**.
5. Click **OK** Button. The menu screen will be displayed.

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

Item	Description
Monitor	Monitors the screen currently displayed on the PT.
Operation	Monitors the screen currently displayed on the PT. Operates the PT screen by mouse clicking the web browser.
Configuration	Make settings related to NB Web Interface.

Details on each screen are explained in **3 The Functions of NB Web Interface**.

Reference

- The initial screen can be changed by setting. For details on the setting, refer to **4 NB Web Interface Settings**.

3 The Functions of NB Web Interface

This section explains the functions of NB Web Interface.

3-1 A List of the Functions of NB Web Interface

NB Web Interface has the following functions (screens).

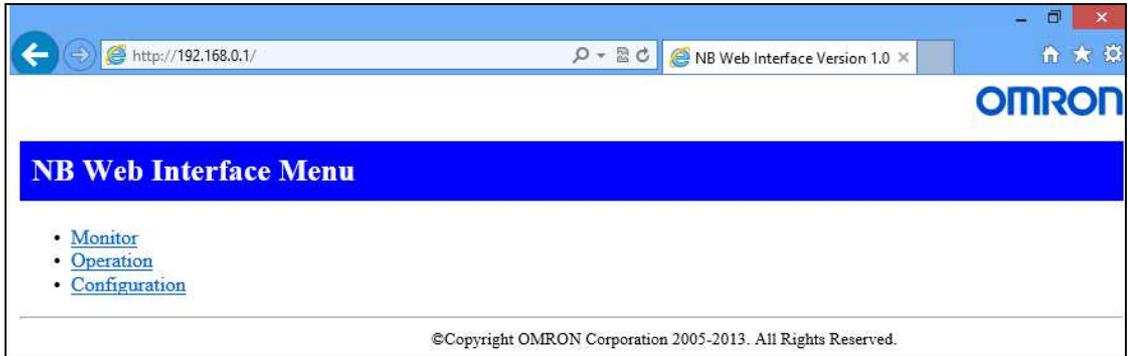

Detail	Content
Menu screen	The menu screen of NB Web Interface.
Monitor screen	Monitors the screen currently displayed on the PT.
Operation screen	Monitors the screen currently displayed on the PT. Also operates the PT screen by mouse clicking the web browser.
Configuration screen	Make settings related to NB Web Interface.

Reference

- For Configuration screen, refer to **4 NB Web Interface Settings**.

3-2 Menu Screen

The Menu screen displays the following screen.

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

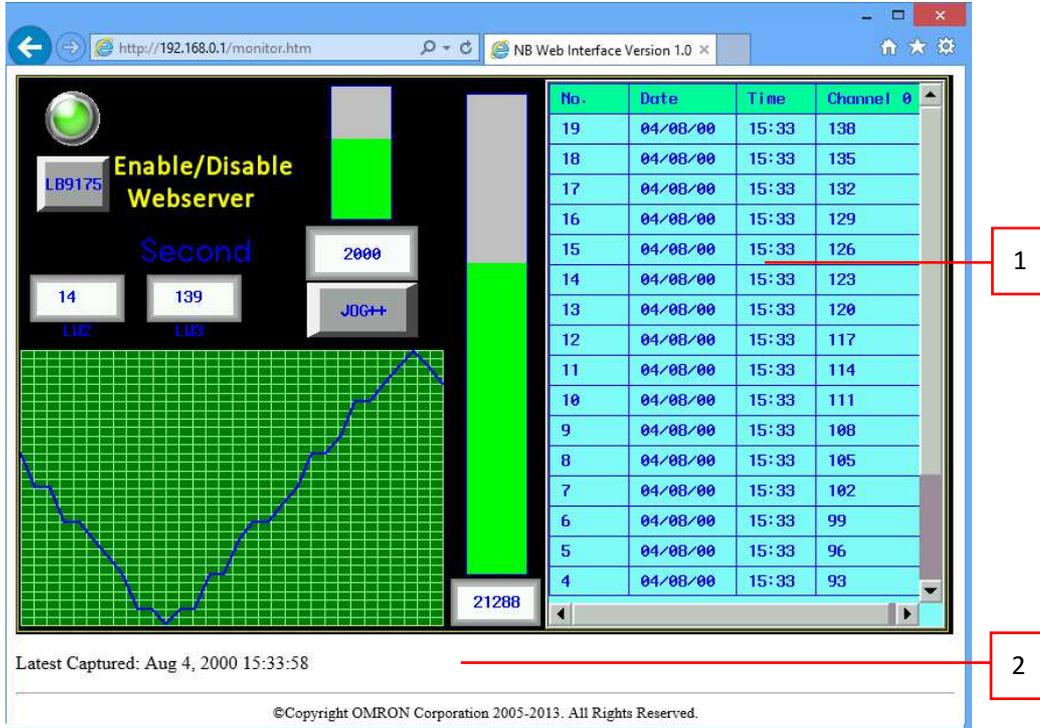

Item	Description
Menu screen	Displays a list of the NB Web Interface screens. Clicking will jump to each screen.

3-3 Monitor Screen

3-3-1 Monitor Screen

The Monitor screen is used to display a PT screen.

It displays the screen as follow. (e.g.)

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

No.	Item	Description
1	Monitor Screen	Displays a PT screen.
2	Latest Captured	Displays the date and time when a PT screen was read.

Reference

- A PT screen cannot be operated with the Monitor screen.
- To operate a screen, please enter into the Operation screen.
- To hide the Latest Captured time, should be set in configuration page. For details on the setting, refer to **4 NB Web Interface Settings**.

3-3-2 Updating a Screen Display

The Monitor Screen periodically reads a screen displayed on the PT and updates the screen in a certain interval set in the Configuration screen. (Default: 15 seconds) For details on the setting, refer to **4 NB Web Interface Settings**.

3-3-3 Specifying the Display Image Format of the Monitor Screen

NB Web Interface displays a Windows BMP, JPEG or PNG format image of a PT screen on a web browser. To select one of the formats, make a setting in the Configuration screen.

Reference

- The display picture format settings in the Configuration screen will also be used for the Operation screen.

3-3-4 Not Using the User Authentication

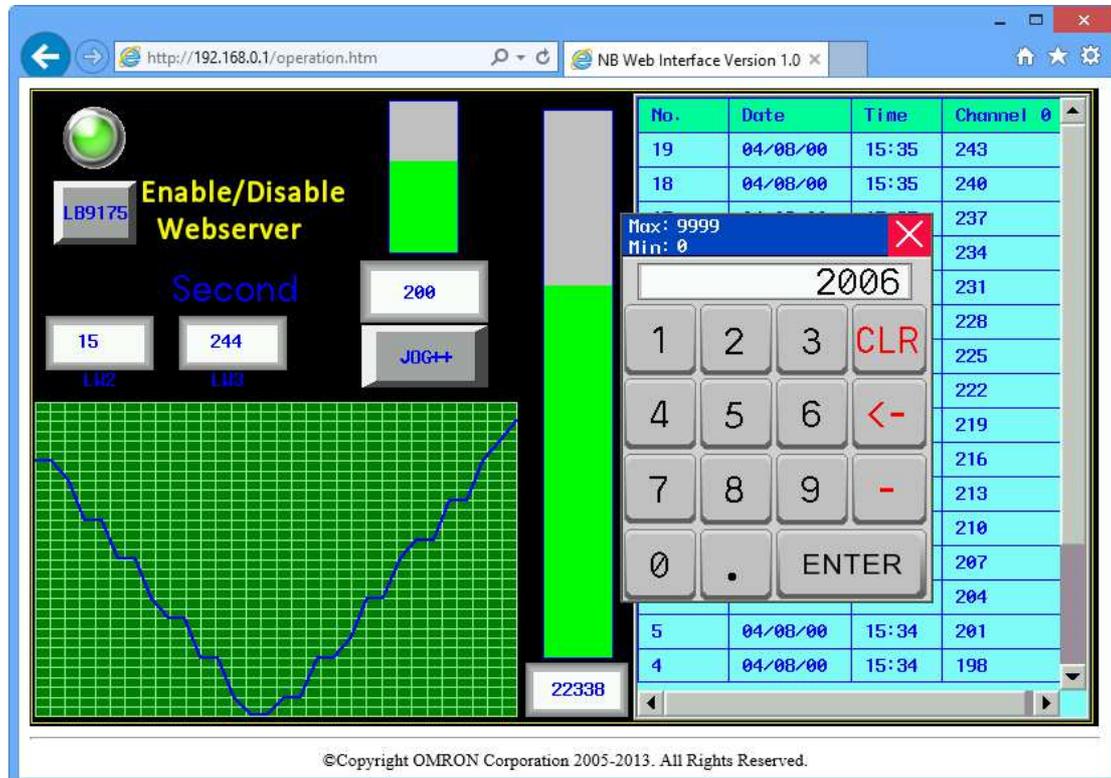

It is possible to set whether or not to use the user authentication (Login screen display) when directly specifying a URL to open the Monitor screen. For details on the setting, refer to **4 NB Web Interface settings**.

3-4 Operation Screen

3-4-1 Operation Screen

The Operation screen is used to display the PT screen and operate the screen.

The Operation screen displays the following screen. (e.g.)

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

Item	Description
Operation screen	Displays the PT screen. Allows the user to operate the PT screen by clicking the web browser.

Reference

- It is possible to prohibit operating the PT screen from the PT while operating the PT screen from the Operation screen. For details, refer to **4 NB Web Interface Settings**.

3-4-2 Reloading Screen Display

The Operation screen periodically reads a screen displayed on the PT and updates the display. The reload interval can be set in the Configuration screen (Default: 3 seconds).

It is also possible to set the time from when the user mouse clicks until the Operation screen reads a PT screen and updates the display. (Default: 1 second).

For details on the setting, refer to **4 NB Web Interface Settings**.

Reference

- The Reload Interval in the Monitor screen and Reload Interval in the Operation screen are independent from each other. Thus, they must be set separately.

4 NB Web Interface Settings

This section explains the NB Web Interface settings.

4-1 NB Web Interface Settings

4-1-1 Configuration Screen

The Configuration Screen is used to make settings for NB Web Interface.

1. Display the Configuration screen.

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

No.	Item	Description
1	Setting Items	Settings for NB Web Interface. For details on the settings, refer to 4-1-2 NB Web Interface Settings .
2	apply	Reflects the setting changes in NB Web Interface.
3	save	Reflects the setting changes in NB Web Interface. Also saves those changes in the PT.
4	default	Returns all settings to the default settings.
5	reset	Cancels the setting changes currently being input, and returns to the settings before change.(return to the last valid settings)

2. Set each item, then click **apply** or **save** button.
3. A window stating of configuration done is displayed.

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.

4. When three seconds elapsed after “Configuration Done” screen is displayed, the window automatically displays a screen set for **Initial Page**.

4-1-2 NB Web Interface Settings

Setting items in the Configuration screen are explained here.

Monitor Setting

Item	Description	Corresponding screen
Reload Interval	Set the time from when the Monitor screen reads a PT screen until when it next reads the NB screen. Between 2 and 99 seconds can be set. (Default: 15 seconds)	Monitor screen
Display Pic Format	Set which images format used when a PT screen is transferred. There are three formats can be select: BMP, JPEG and PNG. (Default: BMP) -Checked: Use -Unchecked: Not use When PNG images are used, user can set the compression level for PNG formats in the option “Compression Level”.	Monitor screen, Operation screen
PNG Compression Level	Set the compression level for creating PNG data. Between 0(Compression non destructive) and 8(Highest compression rate) can be set. (Default: 3) Only enable when selected PNG format in “Display Pic Format”.	Monitor screen, Operation screen
Display Date and Time	Set whether to display the date and time when the PT screen is captured on the bottom of Monitor screen. (Default: Selected) -Checked: Displayed -Unchecked: Not displayed	Monitor screen
Use Authentication	Set whether to use the user authentication or not when specifying a URL for Monitor screen. (Default: Unchecked) -Checked: User authentication used -Unchecked: User authentication not used	Monitor screen

Operation Setting

Item	Description	Corresponding screen
Reload Interval	Set the time from when Monitor screen reads an NB screen to when it reads the next NB screen. Between 2 and 99 seconds can be set. (Default: 3 seconds)	Operation screen
Delay After Click	Set the time from when mouse is clicked to when an NB screen is read. Between 0 and 99 seconds can be set. (Default: 1 second)	Operation screen
Disable Touch Panel	Set whether or not to accept inputs at the PT while the Operation screen is being shown. (Default: Unchecked) -Checked: Not accept touch inputs -Unchecked: Accept touch inputs	Operation screen refer : note1

note1: If user checked “Disable Touch Panel” option and entered the operation screen in browser then disconnect Ethernet cable, NB will waiting 5min for touch control restoration.

Server Setting

Item	Description	Corresponding screen
Page Title	Set the web page title of up to 64 characters. (Default: NB Web Interface name and its version) Only support ASCII.	All screens
Initial Page	Set a screen shown when “http://(PT IP address)” is specified as a URL and when the Configuration screen is closed. (Default: Menu)	-
TCP Port	Specify the TCP port number that NB Web Interface uses. Port numbers 80, 8080, and between 49152 and 65535 can be input. (Default: 80) When this setting is changed, NB Web Interface will cut the connection, and wait to connect using the specified port number. Note: Safari browser cannot use 65535 for port number.	All screens
User JavaScript	Set whether to use JavaScript for screen reloading and screen operation. (Default: Checked) -Checked: Use -Unchecked: Not use	Monitor screen, Operation screen

Reference

- If an invalid value such as a value out of the range is inputted in any fields in the Configuration screen and the “**apply**” or “**save**” button is clicked, the value before change will be set in the corresponding fields. If the TCP Port setting is changed, NB Web Interface will cut the connection temporarily. Specify a port number and re-connect from a web browser.

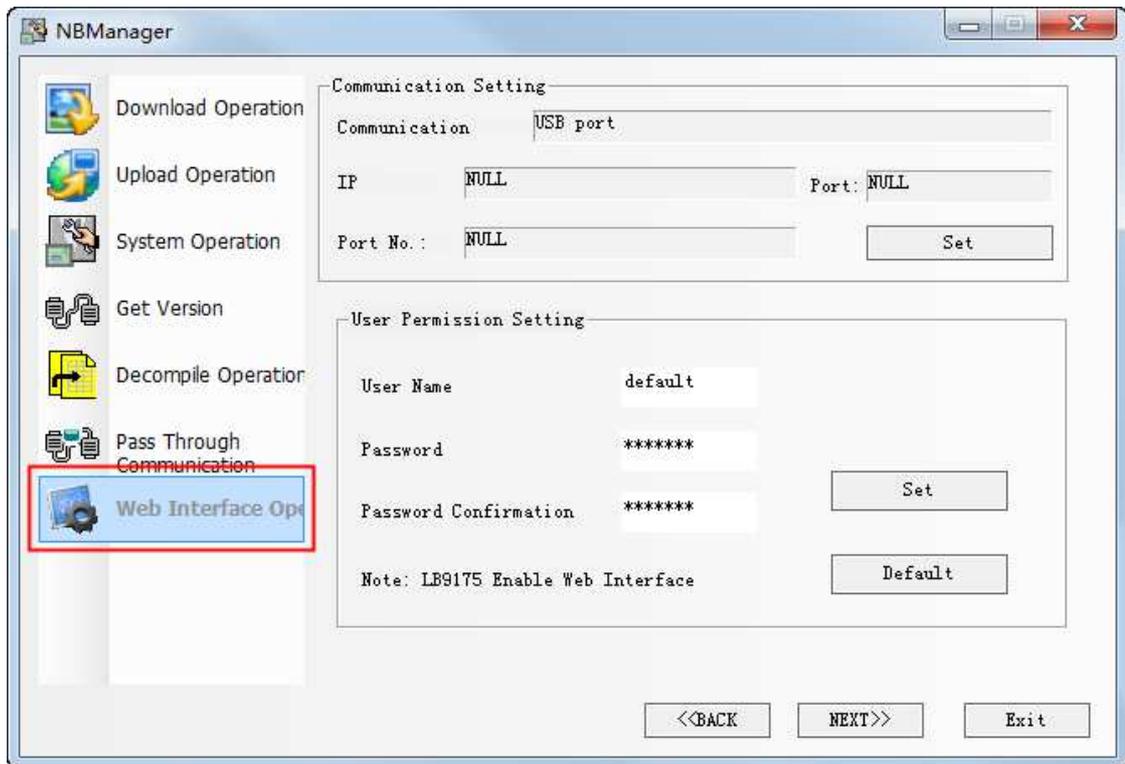

For example, specify a URL as follows:

When the PT IP Address is 192.168.0.1 and the set port number is 8080. The URL should be input in browser is: http://192.168.0.1:8080/ (Input “:port number” after the IP address). If 80(default) is set as the port number, it don’t needs to be specified.

5 Authentication settings

5-1 Change user name and password

1. Connect NB terminal to PC then open NB-Manager.
2. In NB-Manager select “Web Interface Operation” on the left side, the setting page will be displayed on the right side.

3. Input new user name, password, confirm password and click “Save Set”, the new login data has been registered in NB.

Note: 1. Maximum length of user name and password is 32 char.

2. User name and password only support English letters and Arabic numerals.

Reference

- For connecting NB with PC, please refer to chapter **2-3 Connecting of NB-series with PC** of **NB series Setup Manual**.

5-2 Default user name and password Restoration

If user wants to restore the default user name and password just click “Default” button then click “Save Set” button.

Default login data:

User Name	default
Password	default

6 Troubleshooting

This section explains the troubleshooting measures when errors occur in NB Web Interface.

6-1 Error Messages

This section describes error messages displayed during using NB Web Interface and their countermeasures.

Message	Cause	Countermeasure
401 Authorization Required	In the user authentication screen, an incorrect user name or password is entered.	Enter the correct user name and password.
404 Not Found	The specified URL is incorrect.	Specify the correct URL.
NB Image	Cannot properly transfer image data from the PT to a web browser. This occurs due to an excessive network load or with some browsers.	Click Refresh Button on the web browser.
Cannot find server or DNS error	An attempt was made to connect to a PT model that does not support the NB Web Interface.	Cannot connect to a model that does not support the NB Web Interface. For information on models that support the NB Web Interface, refer to 1-3-1 Necessary NB Series Configuration .
	Not set bit register LB9175 to ON.	Set bit register LB9175 to ON.
	The specified IP address in a URL is incorrect.	Check the PT IP address. Then specify the correct IP address.
Other error messages	An excessive load is applied to the network or PT.	Wait a while and try again.

Terms and Conditions of Sale

1. **Offer; Acceptance.** These terms and conditions (these "**Terms**") are deemed part of all quotes, agreements, purchase orders, acknowledgments, price lists, catalogs, manuals, brochures and other documents, whether electronic or in writing, relating to the sale of products or services (collectively, the "**Products**") by Omron Electronics LLC and its subsidiary companies ("**Omron**"). Omron objects to any terms or conditions proposed in Buyer's purchase order or other documents which are inconsistent with, or in addition to, these Terms.
2. **Prices; Payment Terms.** All prices stated are current, subject to change without notice by Omron. Omron reserves the right to increase or decrease prices on any unshipped portions of outstanding orders. Payments for Products are due net 30 days unless otherwise stated in the invoice.
3. **Discounts.** Cash discounts, if any, will apply only on the net amount of invoices sent to Buyer after deducting transportation charges, taxes and duties, and will be allowed only if (i) the invoice is paid according to Omron's payment terms and (ii) Buyer has no past due amounts.
4. **Interest.** Omron, at its option, may charge Buyer 1-1/2% interest per month or the maximum legal rate, whichever is less, on any balance not paid within the stated terms.
5. **Orders.** Omron will accept no order less than \$200 net billing.
6. **Governmental Approvals.** Buyer shall be responsible for, and shall bear all costs involved in, obtaining any government approvals required for the importation or sale of the Products.
7. **Taxes.** All taxes, duties and other governmental charges (other than general real property and income taxes), including any interest or penalties thereon, imposed directly or indirectly on Omron or required to be collected directly or indirectly by Omron for the manufacture, production, sale, delivery, importation, consumption or use of the Products sold hereunder (including customs duties and sales, excise, use, turnover and license taxes) shall be charged to and remitted by Buyer to Omron.
8. **Financial.** If the financial position of Buyer at any time becomes unsatisfactory to Omron, Omron reserves the right to stop shipments or require satisfactory security or payment in advance. If Buyer fails to make payment or otherwise comply with these Terms or any related agreement, Omron may (without liability and in addition to other remedies) cancel any unshipped portion of Products sold hereunder and stop any Products in transit until Buyer pays all amounts, including amounts payable hereunder, whether or not then due, which are owing to it by Buyer. Buyer shall in any event remain liable for all unpaid accounts.
9. **Cancellation; Etc.** Orders are not subject to rescheduling or cancellation unless Buyer indemnifies Omron against all related costs or expenses.
10. **Force Majeure.** Omron shall not be liable for any delay or failure in delivery resulting from causes beyond its control, including earthquakes, fires, floods, strikes or other labor disputes, shortage of labor or materials, accidents to machinery, acts of sabotage, riots, delay in or lack of transportation or the requirements of any government authority.
11. **Shipping; Delivery.** Unless otherwise expressly agreed in writing by Omron:
 - a. Shipments shall be by a carrier selected by Omron; Omron will not drop ship except in "break down" situations.
 - b. Such carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer;
 - c. All sales and shipments of Products shall be FOB shipping point (unless otherwise stated in writing by Omron), at which point title and risk of loss shall pass from Omron to Buyer; provided that Omron shall retain a security interest in the Products until the full purchase price is paid;
 - d. Delivery and shipping dates are estimates only; and
 - e. Omron will package Products as it deems proper for protection against normal handling and extra charges apply to special conditions.
12. **Claims.** Any claim by Buyer against Omron for shortage or damage to the Products occurring before delivery to the carrier must be presented in writing to Omron within 30 days of receipt of shipment and include the original transportation bill signed by the carrier noting that the carrier received the Products from Omron in the condition claimed.
13. **Warranties.** (a) **Exclusive Warranty.** Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied. (b) **Limitations.** OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE. Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) **Buyer Remedy.** Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty. See <http://www.omron247.com> or contact your Omron representative for published information.
14. **Limitation on Liability; Etc.** OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY. Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.
15. **Indemnities.** Buyer shall indemnify and hold harmless Omron Companies and their employees from and against all liabilities, losses, claims, costs and expenses (including attorney's fees and expenses) related to any claim, investigation, litigation or proceeding (whether or not Omron is a party) which arises or is alleged to arise from Buyer's acts or omissions under these Terms or in any way with respect to the Products. Without limiting the foregoing, Buyer (at its own expense) shall indemnify and hold harmless Omron and defend or settle any action brought against such Companies to the extent based on a claim that any Product made to Buyer specifications infringed intellectual property rights of another party.
16. **Property; Confidentiality.** Any intellectual property in the Products is the exclusive property of Omron Companies and Buyer shall not attempt to duplicate it in any way without the written permission of Omron. Notwithstanding any charges to Buyer for engineering or tooling, all engineering and tooling shall remain the exclusive property of Omron. All information and materials supplied by Omron to Buyer relating to the Products are confidential and proprietary, and Buyer shall limit distribution thereof to its trusted employees and strictly prevent disclosure to any third party.
17. **Export Controls.** Buyer shall comply with all applicable laws, regulations and licenses regarding (i) export of products or information; (ii) sale of products to "forbidden" or other proscribed persons; and (iii) disclosure to non-citizens of regulated technology or information.
18. **Miscellaneous.** (a) **Waiver.** No failure or delay by Omron in exercising any right and no course of dealing between Buyer and Omron shall operate as a waiver of rights by Omron. (b) **Assignment.** Buyer may not assign its rights hereunder without Omron's written consent. (c) **Law.** These Terms are governed by the law of the jurisdiction of the home office of the Omron company from which Buyer is purchasing the Products (without regard to conflict of law principles). (d) **Amendment.** These Terms constitute the entire agreement between Buyer and Omron relating to the Products, and no provision may be changed or waived unless in writing signed by the parties. (e) **Severability.** If any provision hereof is rendered ineffective or invalid, such provision shall not invalidate any other provision. (f) **Setoff.** Buyer shall have no right to set off any amounts against the amount owing in respect of this invoice. (g) **Definitions.** As used herein, "including" means "including without limitation"; and "Omron Companies" (or similar words) mean Omron Corporation and any direct or indirect subsidiary or affiliate thereof.

Certain Precautions on Specifications and Use

1. **Suitability of Use.** Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases but the following is a non-exhaustive list of applications for which particular attention must be given:
 - (i) Outdoor use, uses involving potential chemical contamination or electrical interference, or conditions or uses not described in this document.
 - (ii) Use in consumer products or any use in significant quantities.
 - (iii) Energy control systems, combustion systems, railroad systems, aviation systems, medical equipment, amusement machines, vehicles, safety equipment, and installations subject to separate industry or government regulations.
 - (iv) Systems, machines and equipment that could present a risk to life or property. Please know and observe all prohibitions of use applicable to this Product.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON'S PRODUCT IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.
2. **Programmable Products.** Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.
3. **Performance Data.** Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.
4. **Change in Specifications.** Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.
5. **Errors and Omissions.** Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.
